

USING MCKAL MP901 SUPER COMPACT (SS-SMART/SIM) WITH SINGAPORE CASHCARD (FOR WINDOWS SYSTEM ONLY)

Note: Due to the proprietary implement of NETS cashcard, user need to use NETS online website or NETS E-Wallet application to read the transaction log. For support of E-Wallet and NETS Online website, please contact NETS Singapore. MCKAL is not the owner of NETS cashcard, it's online website or NETS E-Wallet and is not oblige to provide any technical support for it. Please contact NETS Singapore for support.

A What you need.

- MCKAL MP901 (Super Compact SS)
- Download the driver of MP901 from www.mckal.com/downloads.php or use the CD provided.
- Download NETS E-Wallet (<http://cashcard.fileave.com/NETSE-Wallet230Full.zip>)
- Additional DLL that is need for E-Wallet (www.mckal.com/download/DLL.zip).
- A valid and working cashcard.
- internet connection (if planning to use NETS online website).

B. Setting up the hardware and drivers (for Windows systems)

- Execute "Autorun" (or Autorun.exe) from CD or the downloaded drivers.
- Select "SIM/Smart" Driver
- Follow the instruction to complete the installation.
- After installation of drivers, plug the MP901 into your USB port, allow time for the system to auto-detect and complete the devices installation.
- Once completed you can insert your "NETS Cashcard" into the slot as shown (Blue/Red light blinking on and off to indicate activities of card reader).

C. Reading Card Card with either

Option 1 - Using the Cashcard offline (Installing and using NETS E-Wallet)

- download <http://cashcard.fileave.com/NETSE-Wallet230Full.zip> if you have not.
- run and install NETS E-Wallet.
- download www.mckal.com/download/DLL.zip if you have not
- unzip DLL.zip and copy the 2 files (scard.dll and scdll32.dll) into "C:\Program Files\NETSE-Wallet" and overwrite if necessary.
- launch "NETS E-Wallet" and click login (as guest and no password needed).
- goto "Transaction History" tab → "CashCard Detail" for your transaction log.

Option 2 - Using the Cashcard functions online with NETS website

- goto www.nets.com.sg
- select "NETS CASHCARD"
- then select "NETS CashCard Online Services"
- use the function provided by NETS.
- Important! You must allow and install the java api when prompted.
- Alternatively, you can go direct to:
http://www.nets.com.sg/consumers/netscashcard/ncc_services.php
